Subject: EPA and BDCP Effects Analysis

Mike Chotkowski asked that I check in with you to see if EPA was planning to, or had interest in, reviewing the BDCP Chapter 5 Effects appendix on "Water Quality"? Reclamation and NOAA do not have any staff with water quality backgrounds and we would appreciate the additional input. As of today, the consultants have modified the appendix review schedule. September 30th they will release a portion of the appendix originally titled "Flow, Passage and Salinity". The Sept 30 version will now include turbidity, temperature and dissolved oxygen. The remainder of the appendix will be available October 14 released in conjunction with a renamed appendix on "Toxics". All the deadlines are tight and the federal family is meeting quickly to divide up the work load with a new strategy to provide constructive comments. Input and interaction with EPA on this portion would our ability to provide helpful feedback to ICF.

Thanks,
Leanna
